

Select steel angle gauge blocks

The gauge blocks are delivered with an inspection report or on request with a DAkkS certificate, UKAS acknowledged. Special sizes and sets are available on request.

- Angle gauge blocks: 10" to 80° available.
- Accuracy: $\pm 2''$.
- Cross-section: 50 x 9 mm.
- Delivery in a case.
- Also available in sets.

Steel angle gauge blocks, per piece

Category	Angle	Item No.	Description
10" - 5°	10", 30", 1', 2', 3', 4', 5', 10', 20', 30', 40', 50', 1°, 2°, 3°, 4°, 5°	831.424	Angle gauge block 10"
10° - 15°	10°, 15°	831.441	Angle gauge block 10°
20° - 30°	20°, 30°	831.442	Angle gauge block 20°
40° - 80°	40°, 45°, 50°, 60°, 70°, 80°	831.443	Angle gauge block 40°

Schwenk carbide precision measuring balls

The carbide measuring balls are excellent wear-proof and corrosion resistant and are supplied in accuracy class 25. Suitable for various precision applications.

- Standard supplied: \varnothing 1 - 26 mm, \varnothing 1 - 12 mm, increment 0.5 mm, \varnothing 13 - 26 mm, increment 1 mm
- Other sizes and intermediate dimensions are available on request.
- Hardness: HV 1550 \pm 50.
- On request available in ruby or ceramic version.
